Brian Skelton

Implementation Manager | Solutions Architect | Technical Consultant

BrianSkeltonjobs795@gmail.com | Alpharetta, GA | linkedin.com/in/b-skelton | brian7952002.github.io

PROFESSIONAL SUMMARY

Implementation and solutions leader with 8+ years guiding SaaS, payroll, and HCM clients from onboarding through go-live and expansion. Owns the full implementation lifecycle—translating business needs into technical specifications, architecting integrations and automated workflows, and driving product adoption that delivers measurable ROI. Combines hands-on technical depth (SQL, Workato, data migration, SSO) with the stakeholder management, requirements gathering, and roadmap prioritization skills that bridge product, engineering, and customers. Uses AI agents to automate data cleanup, aggregation, and compliance tracking. Seeking a product management, implementation management, or technical consulting role where outcomes and user experience drive the work.

CORE SKILLS

Product & Delivery: Implementation Management | Project Management | Product Adoption | Requirements Gathering | User Journey Mapping | Roadmap Prioritization | Change Management | Stakeholder Communication
Technical: Workato | SQL (PostgreSQL, MySQL, MS SQL) | Data Migration & ETL | Salesforce | Pendo.io | SSO & SAML | API / Third-Party Integrations | JavaScript | HTML/CSS | Python
AI & Agents: Claude Code | MCP Connectors | Custom Agent Skills | Scheduled Agents | AI Data QA
Methods: Cross-Functional Collaboration | UX Research | Process Improvement | QA & Testing | Documentation & Training | Solution Architecture

PROFESSIONAL EXPERIENCE

Enterprise Implementation Manager & Solutions Architect
Seso | Remote | Jan 2026 – Present

- **Implementation Lifecycle:** Manage end-to-end client onboarding for payroll and HCM deployments, translating business needs into technical specifications and ensuring a seamless go-live experience.
- **Solution Architecture & Integration:** Design and execute custom data integrations and automated workflows using SQL and relationship-based logic to resolve unique client payroll challenges.
- **Data Migration & Integrity:** Oversee end-to-end migration strategies, ensuring accuracy across high-volume payroll data transfer and validation.
- **Process Optimization:** Analyze existing payroll workflows to identify bottlenecks and architect scalable solutions that improve efficiency and compliance.
- **AI-Augmented Delivery:** Use AI agents to automate data cleanup, aggregation, and compliance tracking, with human review on every output.

Technical Solutions Consultant
PrimePay | Remote | Apr 2023 – Jan 2026

- **Client Discovery & Bespoke Solutions:** Conducted client interviews, workshops, and surveys to define needs, then designed tailored HR processes and reporting that automated tasks and reduced manual effort.
- **Integrations & Automation:** Built customized workflows and automated HR processes in SaaS environments using Workato, connecting applications and third-party products to save time and cut costs.
- **Custom Reporting & Data:** Generated PostgreSQL reporting tailored to client needs, managed third-party integrations, and bridged product gaps with data-driven insights.
- **Security & Access:** Led Single Sign-On (SSO) and SAML-based integration initiatives to ensure secure, seamless access across platforms.
- **Project Management:** Managed technical project delivery—resource planning, timelines, and risk mitigation—while maintaining clear stakeholder communication on progress and trade-offs.
- **Quality & Continuous Improvement:** Audited existing systems, rigorously tested solutions, and recommended enhancements to optimize performance and client satisfaction.

Paylocity Remote / Lake Mary, FL | Sep 2017 – Apr 2023

Digital Engagement Specialist Sep 2021 – Apr 2023

- **Product Adoption:** Led implementation and accelerated adoption of Pendo, delivering strategies that brought 300+ in-app product guides to market in the first year.
- **Journey Optimization:** Led the "Top 8" initiative that reduced client interactions at key journey points by 58%, achieving a $1M ROI.
- **Stakeholder Strategy:** Partnered with stakeholders and UX designers across interaction management, knowledge development, adoption analysis, and upsell initiatives.
- **Governance & Enablement:** Built the governance model and standard operating procedures for the Digital Adoption team; ran user research to understand client behavior and utilization.

Technical Support Specialist II Nov 2019 – Sep 2021

- **High-Volume Support:** Resolved 350+ monthly tickets, providing internal product support and external consultation from implementation through service.
- **Product Feedback Loop:** Authored 100+ software enhancement requests with detailed documentation, increasing visibility into client-centric system gaps.
- **Enablement & Data:** Delivered training to drive adoption, built internal documentation and knowledge articles, and used SQL to maintain client data integrity.

Account Manager III Sep 2017 – Nov 2019

- **Retention:** Managed a $1.3M book of business and implemented account strategies that achieved 98% retention.
- **Expansion:** Identified product usage trends to set expansion goals and guided 80+ clients from setup through expansion on cloud-based HCM tools.
- **Process & Training:** Refined project management systems to reduce request turnaround, and empowered clients through formal and informal database training.

SELECTED PROJECTS

- **AI-Built Tools (2026):** Directed Claude Code agents to build an EER-to-SQL database modeling tool (36 reviewed commits in about two weeks) and a team project tracker.
- **Payroll Submit Loop (2022):** Analyzed client interaction data and introduced a corrective feature that reduced service interactions and saved $112K annually—recognized as Employee of Q4 2022.
- **Workato Integration (2024–25):** Developed a recipe-creation system that minimized data-migration downtime, improving deployment efficiency and service delivery.
- **Workflows Adoption (2023):** Created an implementation model, documentation, and modification-request process that streamlined client setup and surfaced upsell opportunities.
- **Custom Reporting (2023):** Built a foundational report package that accelerated adoption, reduced data-review time, and improved client decision-making.
- **Client Data Collection (2022):** Used in-app targeting to collect missing tax-compliance data directly from clients, cutting the backlog of missing EINs by one-third in the first month.

EDUCATION

M.S., Computer Science Georgia Institute of Technology | Atlanta, GA
Jan 2025 – Dec 2028 (In Progress)

A.S., Network Engineering Technology – Cloud Infrastructure Security Valencia College | Orlando, FL
2021 | GPA 3.94

B.S., Criminal Justice Columbus State University | Columbus, GA
2013 | GPA 3.73

CERTIFICATIONS

Workato Automation Pro III (2025) · **Pendo Administrator** (2022) · **AWS Certified Cloud Practitioner** (2021)

Computer Programming Specialist – Web Development (Valencia, 2020) · Computer Programming Specialization (Valencia, 2020) · Intro to Programming Using Python (Sololearn, 2025)
